1	<p>5_27 Mathe matics 8381</p>	<p>Integers Chapter 1</p>	<p>Consider this 'string' given below of 0's and 1's: Study this string of digits and the rules given below to answer the question. Rule 1: Starting from the left, replace every '11' in the string with '01' Rule 2: Starting from the left, replace every '001' in the string with '1' For example, if Rule 1 is applied to the string '0110', the result will be '0010'.If Rule 2 is then applied to this string '0010', the result will be '10'. '10' will be the final string, as Rules 1 and 2 have no effect on it. If Rule 1 is applied completely to the original string, what will be the new string obtained?</p>	<p>1101101101011010</p>	<p>C</p>
